

Mr. Vince Ryan  
Harris County Attorney  
1019 Congress, 15<sup>th</sup> Floor  
Houston, Texas 7702

Dear Mr. Ryan:

Thank you for your letter dated January 11, 2016, regarding the armor cap covering the San Jacinto River Waste Pits Superfund site. Although the damaged area has been repaired, the Environmental Protection Agency (EPA) shares your concerns including the need to better understand what happened at the damaged area and to identify what future steps should be taken.

EPA is tasking the United States Army Corps of Engineers (USACE) to conduct an investigation of the cause of the damaged area of the cap. We will request that your specific concerns be considered by the USACE as part of the investigation. In addition, we are requesting that the USACE recommend future inspection techniques to ensure the integrity of the armor cap. These techniques may include side-scan sonar, as mentioned, or other inspection techniques not currently utilized. EPA will work closely with Harris County and other partner agencies as this process is implemented.

If you have any questions please call me at (214) 665-2100, or your staff may contact Mr. Austin Vela, Congressional Liaison, at (214) 665-9792.

Sincerely,

Ron Curry  
Regional Administrator
